All students require health care insurance, you have a few options:

1. Students can obtain coverage from a private insurance company. You are encouraged to check with a few insurance companies as rates may vary.
2. Students from outside Canada may be eligible for Alberta Health Care Insurance Plan (AHCIP) coverage. You will need to apply for AHCIP coverage. Students under 18 years of age must be added to the AHCIP account of a custodian.
 - Students who have a 12 month Study Permit (valid for an Alberta educational institute) and who will reside in Alberta for 12 months or more are eligible for AHCIP coverage.
 - Students with Study Permits valid for more than 3 months, but less than 12 months, may be eligible for AHCIP coverage if their application is accompanied by a letter from the student confirming their intent to reside in Alberta for at least 12 months.
 - If the application is received within 3 months of entry into Alberta, coverage is effective on the date of either entry into Alberta or the date signed on the Study Permit, whichever is later.
 - If you are deemed ineligible for AHCIP, you will need to obtain private insurance in your home country or Canada. This is mandatory. Cypress College does not recommend any particular agency or plan.

SUCCESSFUL COURSE COMPLETION

Successful course completion is program specific and requires students to achieve the grades set out within the program. (Please see your Detailed Course Overview for specific information on the assignment grade breakdown). As Cypress College supports mastery learning, at the end of the unit (Ex: the entire unit of Word) if you have not achieved 60% overall, you will have an opportunity to resubmit one assignment in an effort to improve your grade (note: any resubmitted assignment has a maximum available grade of 85%) This assignment re-submission must be negotiated with your instructor and must be handed in no later than one week after the course ends.

Assignment resubmission requests may be no later than two days after receipt of grade. Further, it cannot be an assignment that you've previously re-submitted.

If you are still unable to achieve an overall grade of 60%, the grade for the unit will reflect the overall score including the resubmission, if any.

If no resubmission, the grade for the unit stands; however you will be eligible to reregister for the course the next time it is offered. Successful completion of the course the 2nd time it is attempted will result in a maximum grade of 80%, regardless of how well you do in all the assignments.

Assignments and quizzes must be complete and uploaded to Moodle by the due date set by the instructor. Late submissions of assignments are typically not allowed, but with the instructor's permission, will be accepted with a penalty of 5% for every day late.

Quizzes will be given zero should they not be completed by the due date. All course quizzes are open book, open resource, which means students can access and use all available resources except the Instructor, TA and/or other students. Quizzes may only be completed at the college, and under the supervision of an employee of Cypress College. No rewrites will be allowed for quizzes/tests. The practical work of each unit (case study assignments) showcases the students understanding of concepts taught. Practical work is regarded as the benchmark for understanding the unit. Extensions may be given based on individual cases.

TEST TAKING POLICIES

1. Upon arrival at test center, candidates must present personal identification bearing a photograph and signature.
2. Candidates may not take recording devices, such as paper/pencil, cameras, PDAs, computers, or communication devices, such as telephones, or pagers into the testing area.

In certain circumstances, the computer on which you are taking the exam may stop responding or produce an error message. If you experience a computer interruption, notify the testing center administrator immediately to restart your exam. When the exam is restarted, the software will return to the point in the exam where you were interrupted and will retain both your score and keep your remaining time intact.

CHALLENGING AN EXAM ITEM (GRIEVANCE POLICY)

An important part of the exam development process is to review each exam question to ensure technical accuracy, clarity, relevance, and absence of ambiguity and bias. However, in the event you believe a particular exam item is not valid, you may request an evaluation of the item.

Your challenge will be evaluated and you will receive a response within 10 (ten) business days of receipt. Once a decision has been made, it will be regarded as final and no further evaluation will occur.

Will I find out whether my answer to a specific item was correct or whether I would have passed if I had gotten it right?

Exam development staff members will review your exam challenge as described above. To protect exam security, we will not provide information about whether your answer was correct, nor will we provide information about how your performance on that item may have affected your final score.
